**Weather:** The climate of the Lithuania can be described as typical European continental influenced climate with warm, dry summers and fairly severe winters. January is the coldest month with daytime temperatures usually around -5°C, but in some cases winter months can be quite colder with temperatures far below zero, about -20°C or lower and strong, cold northeasterly winds. Heavy snowfall or even snowstorms are also possible on some days. The weather is often breezy and humid due to the proximity of the Baltic Sea.
